

Umbrella Spring Card Craft

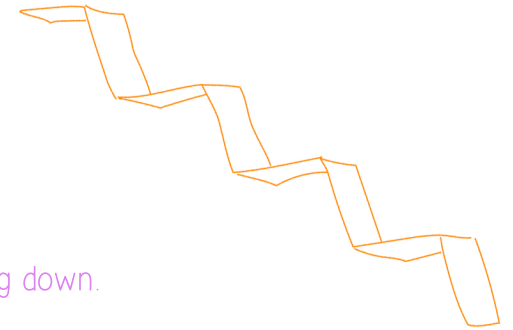

Step by Step Instructions

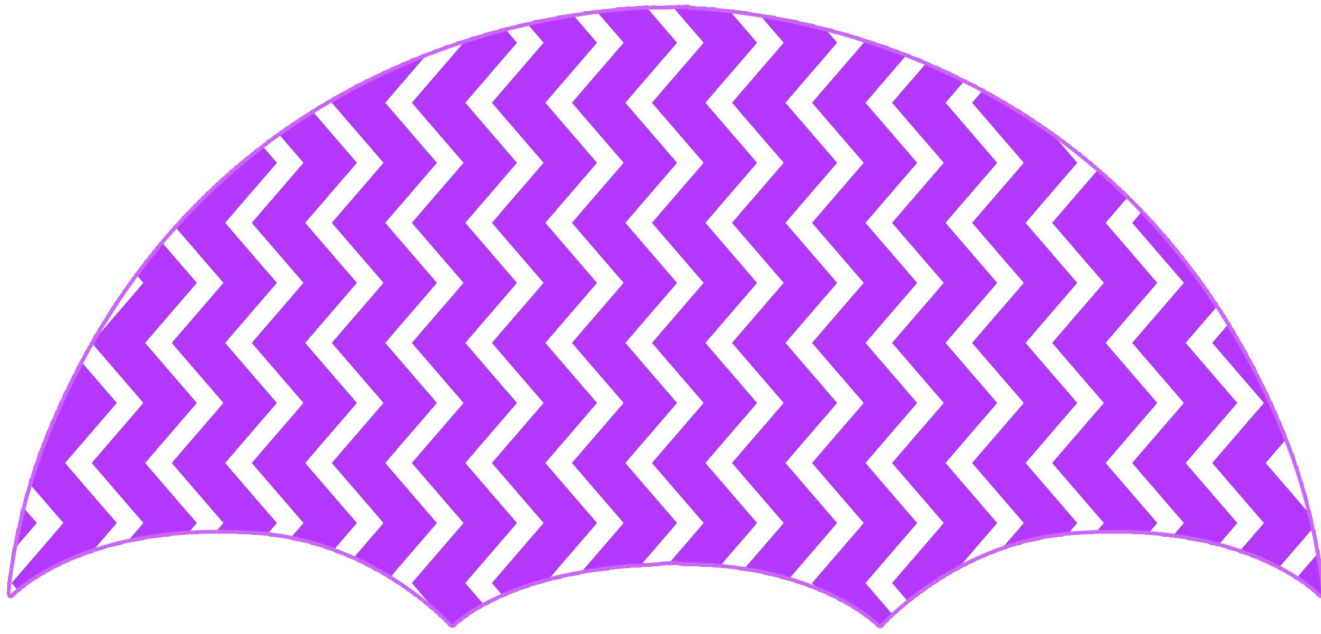

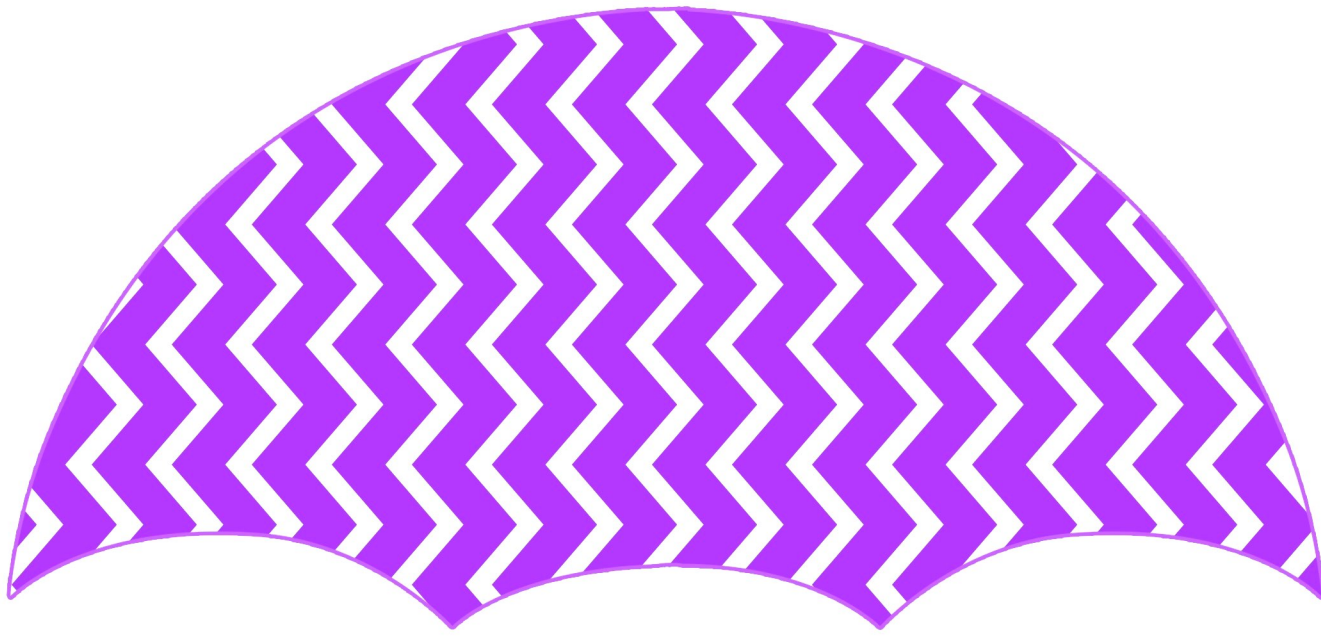

This card is a unique way to say "Happy Mother's Day!" or "Happy Spring!"
Open up the card and a 3D pop-up umbrella and little bird will appear!
There's just enough room to write your very own personal message!

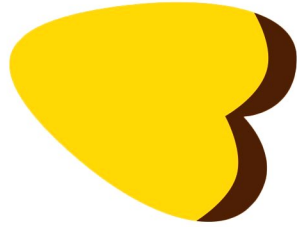

1. Print sheets #2 - #4 on cardstock.
2. Fold the inner card print-out in half so that the bird is facing the inside of the card. Use the blunt end of scissors to flatten the crease.
3. Cut the front greeting side of the card along the dotted line. Place this aside for now.
4. Carefully cut out the umbrellas, wing, and pink rectangle.
5. Fold the umbrella shapes in half. (It helps to crease these, as you did with the card.)
6. Glue the umbrella halves one on top of the other.
7. Once you have all of them glued together, open them up so that the blank sides of the umbrella are facing down.
8. Apply glue to these blank sides and position it above the umbrella handle. Press it down onto the card.
10. Next, take the pink rectangle and accordian fold it. (see drawing) Glue one end of the accordian to the back of the wing. Allow to dry.
11. Place a bit of glue to the other end of the accordian strip and then glue the wing to the bird's body. Allow to dry.
12. Close and press the card, then re-open to separate and arrange umbrella shapes. Allow to dry.
13. Glue the front of the card (with greeting, from step #3) onto the folded creation.
14. Optional - to finish card, use a hole punch device and create a hole through all layers... thread a matching ribbon for a pretty tie closure.

I love you,
rain or
shine!
